EDUCATION

University of North Carolina at Chapel Hill, Chapel Hill, NC

Fall 2025 - May 2029

Bachelor's of Science in Neuroscience

Minor in Chemistry, Minor in Medical Anthropology

GPA: 3.73

Honors and Awards

None Yet

RESEARCH STATEMENT

Microgravity and cosmic radiation place significant strain on the cardiovascular system by disrupting hemodynamics, vascular integrity, and cellular signaling during spaceflight. Prior studies in space medicine suggest that these conditions alter plasma biomarkers of inflammation, endothelial injury, and physiological stress, indicating elevated cardiovascular risk. My research aims to characterize how specific microgravity and radiation exposures change these biomarkers and vascular responses over time. These findings could guide countermeasures that protect cardiovascular health on long-duration missions and inform new diagnostics or therapies for cardiovascular disease on Earth.

WORK EXPERIENCE

UNC Hospitals, Chapel Hill, NC

Jan 2025 -Present

Hospital Volunteer

- Coordinate restocking and reorganization of medical supplies across multiple wards to reduce retrieval time and support timely patient care.
- Assist with efficient room turnover after patient discharge, helping decrease preparation time and enable faster admissions.
- Enhance patient comfort by bringing water, menus, blankets, and providing companionship, contributing to positive patient feedback

Care First Rehab, Apex, NC

Aug 2024 - Jun 2025

Rehabilitation Intern

- Coordinate restocking and reorganization of medical supplies across multiple wards to reduce retrieval time and support timely patient care.
- Assist with efficient room turnover after patient discharge, helping decrease preparation time and enable faster admissions.
- Enhance patient comfort by bringing water, menus, blankets, and providing companionship, contributing to positive patient feedback

RESEARCH LAB EXPERIENCE

- None yet (anticipated: Dr. Bowles' lab; cardiovascular effects of microgravity and radiation)

PUBLICATIONS AND PRESENTATIONS

- None yet

LEADERSHIP AND COMMUNITY INVOLVEMENT

Tar Heel Raas (UNC's Intercollegiate Competitive Dance Team), Chapel Hill, NC

Aug 2025 - Present

Team Member

- Collaborate with team members to design formations, transitions, and storytelling elements for performances

Heart Club, Chapel Hill, NC

Aug 2025 - Present

Philanthropy Committee Member

- Assist with planning and executing philanthropy events focused on cardiovascular health awareness and fundraising.
- Co-organized a Flower Gram fundraiser for the American Heart Association, selling all 200+ flowers and contributing to increased event visibility and fundraising for cardiovascular health initiatives.

India Fest, Raleigh, NC

Mar 2016 - Present

- Manage trophy desk operations for a large South Asian cultural festival with 100+ performing groups.
- Coordinate organization and distribution of awards and supervise a small volunteer team of 5 during live events.

SKILLS

Technical Skills: Microsoft Office, Google Workspace

Certifications: Basic Life Support (American Red Cross); CPR (American Red Cross)

Languages: English (fluent); Gujarati (fluent); Hindi (proficient); HTML/CSS
